

## OpSuite Mobile - The ability to create PO - GRN - commit the quantity on the PO in one action

Based on the below Role Actions, this will allow you to create a Purchase Order from the “Create PO” mobile module, have the option to “Place” a purchase order and/or have the ability to “Commit” the GRN for all items quantities in the purchase order.

|                                     |                                        |                                                   |  |
|-------------------------------------|----------------------------------------|---------------------------------------------------|--|
| <input checked="" type="checkbox"/> | CommitAndCloseGRN                      | Allow Commit & Close of GRN on Mobile             |  |
| <input checked="" type="checkbox"/> | RunLabelPrintingWizard                 | RunLabel Printing Wizard                          |  |
| <input type="checkbox"/>            | AllowPoPlacingOnMobile                 | Allow placing of POs on creation                  |  |
| <input type="checkbox"/>            | AllowPlacingPOAndCommittingGRNOnMobile | Allow placing & GRN committing of POs on creation |  |
| <input checked="" type="checkbox"/> | DeleteInUseTag                         | Delete Attribute that's in use                    |  |

Enabling the Role Action “Allow placing of POs on creation” will prompt you after the creation button (tick icon) is selected with the below option. You can use the sliding option to place or close to continue without placing a PO.

| PO Number | Place?                                  |
|-----------|-----------------------------------------|
| PO01024   | <input checked="" type="checkbox"/> Yes |

|         | Placed                              | Committed                |
|---------|-------------------------------------|--------------------------|
| PO01024 | <input checked="" type="checkbox"/> | <input type="checkbox"/> |

Enabling both role actions, “Allow placing of POs on creation” and “Allow placing & GRN committing of POs on creation” will prompt you with both options, you can choose either to place the purchase order or commit the purchase order. Sliding just the commit purchase option will automatically slide the placing.

| PO Number | Place?                      | Commit?                     |
|-----------|-----------------------------|-----------------------------|
| PO01021   | <input type="checkbox"/> No | <input type="checkbox"/> No |

| PO Number | Place?                       | Commit?                      |
|-----------|------------------------------|------------------------------|
| PO01021   | <input type="checkbox"/> Yes | <input type="checkbox"/> Yes |

|          | Placed | Committed |
|----------|--------|-----------|
| GRN01005 | ✓      | ✓         |

Enabling “Allow placing & GRN committing of POs on creation” will prompt you with the option to commit. Sliding the “Commit” option will place and commit the PO and GRN.

| PO Number | Commit?                     |
|-----------|-----------------------------|
| PO01025   | <input type="checkbox"/> No |

| PO Number | Commit?                                 |
|-----------|-----------------------------------------|
| PO01025   | <input checked="" type="checkbox"/> Yes |

|          | Placed | Committed |
|----------|--------|-----------|
| GRN01006 | ✓      | ✓         |

You can add multiple items from multiple Suppliers, OpSuite mobile will present each created purchase in a list for you to choose their next step.

| PO Number | Commit?                     |
|-----------|-----------------------------|
| PO01027   | <input type="checkbox"/> No |
| PO01028   | <input type="checkbox"/> No |
| PO01029   | <input type="checkbox"/> No |

| PO Number | Commit?        |
|-----------|----------------|
| PO01027   | <div>Yes</div> |
| PO01028   | <div>No</div>  |
| PO01029   | <div>Yes</div> |
