

OpSuite WPF explanation guide of changes

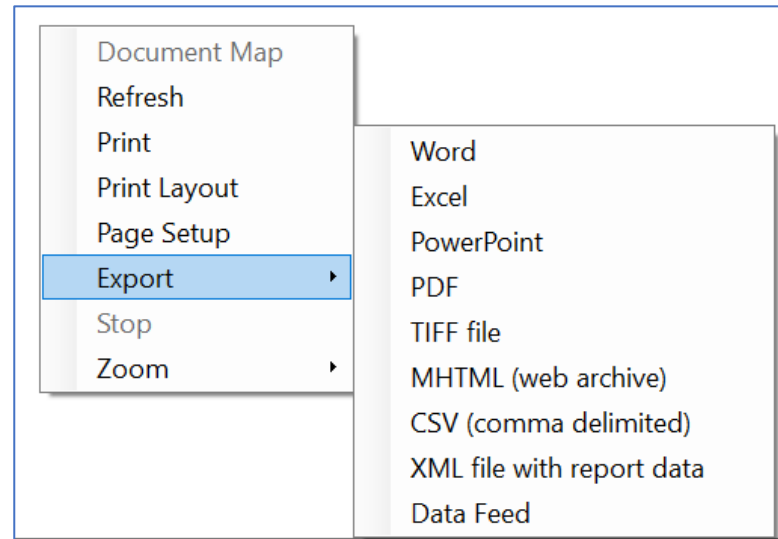

Cut, Copy and Paste is available throughout OpSuite

Printing Standard Reports require the user to choose Print Preview > Print

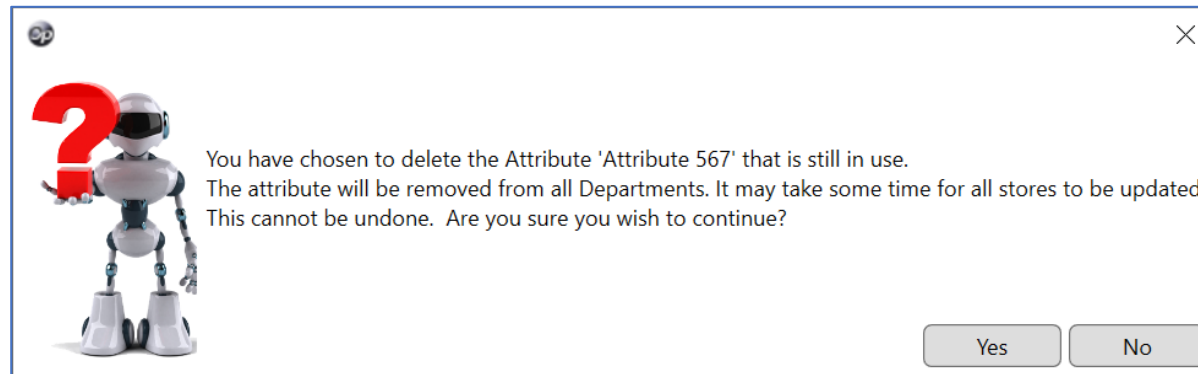

Users can right click on the Standard Report data and choose their export options, Print Layout and refresh the data.

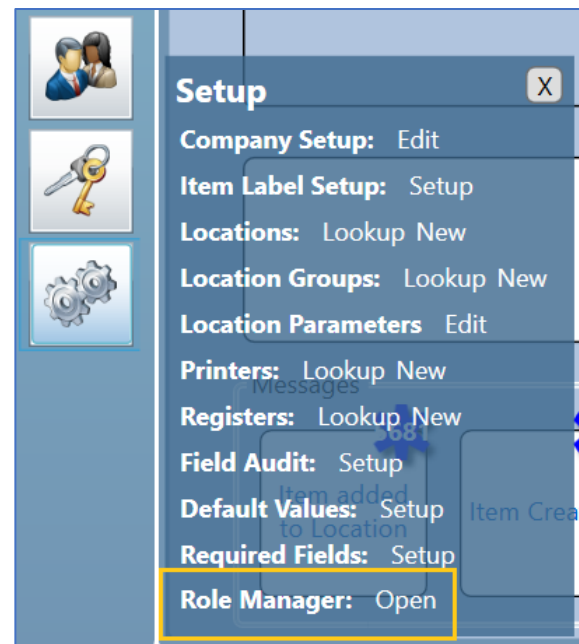

Inventory Transfer Lookup now includes NEW columns - # rows, # items and the value of each Transfer

Inventory Transfer Lookup					
Search By		Title			
Lines per page		100	Page 1 of 10		Total Transfers: 995
	Order Number	# Rows	# Items	Value	
		=	=	=	
Select	TF02026	2	6	£25.65	

Deleting an Attribute will now provide the user (based on role action) the ability to remove this from the assigned, Location, Department, Category, Supplier, Item or Customer

Role Manager Navigation is now located in "Setup"

Invoice Matching - Department and Category additional columns

Matched GRNs Invoice Items Notes			
Lines per page 25 ▾ < < Page 1 of 1 > > Total Lines: 3			
Sku <<	Description	Department	Category
	Aa	Aa	Aa
